

The Standard Base

SKU: BAB-12-0067

The standard base is best suited to table settings and is compatible with all Basil Bangs umbrellas.

- 14kg black powder-coated, square base plate
- Its design allows for being bolted to decking for more permanent installations if desired
- Two horizontal screws secure the umbrella without damaging the pole
- Detachable base plate & spigot pole for easy storage when not in use
- For safety reasons, we recommend using the base on a flat horizontal surface and for umbrellas no larger than 3.5m wide.

Plate: 500 x 500mm square, 6mm thick. Made from mild steel, sandblasted, metalised, and powder coated black. Total weight 14kg.

Spitgot/Pole: Accommodates umbrella poles up to 40mm in diameter. Height is 300mm. Made from mild steel and powdercoated black.

Go Large Protective Cover

SKU: BAU-12-0066

The Protective Cover keeps the Go-Large umbrella canopy looking like new and minimises wear and tear when not in use.

- Basil Bangs' signature trims on high quality, outdoor canvas material
- Strong UV fade resistance and waterproofing
- A heavily reinforced tapered end (so it won't tear or split)
- Colourful, outdoor anti-corrosion zipper
- A sturdy aluminium 'rib' along one side for easy installation in approximately 10 seconds flat!
- Simply hold the rib & slip the sleeve over the top of the umbrella and zip it down so it's nice and snug
